

# The Floe Edge package for May of 2018 for Arctic Bay Adventure's

**Arctic Floe Edge safari located in Arctic Bay, Nunavut, Canada (9 days). Total trip cost per person is \$8,400.00 excluding flights.**

**Day 1:** When appropriate we will take a taxi or shuttle to the airport to connect to First Air flight to Arctic Bay. **Arctic Bay is the third most northerly in Canada** and a famous location for wildlife viewing in the High Arctic. On arrival we will be met and transferred to the **'Tangmaqvik Hotel' or home stay** for our overnight accommodation.

**Day 2:** After breakfast we will be picked up by our local guides and transferred by ski-doo to a purpose built temporary camp by the Floe Edge. The journey will take around 4 hours and we will enjoy the stunning Arctic scenery en route. On arrival in camp, we will be allocated to heated tents and enjoy our first afternoon looking for arctic wildlife at the Floe Edge. There is a good chance of seeing Polar Bear and Narwhal at this time of the year.

**Day 3-7:** Five full days at the beautiful **'Floe Edge'**; also known as the **'Line of Life'**. Although June is start of the Arctic summer, we will still expect day time temperatures only just about about freezing and dropping to around minus 3 at night; so our expedition camp is set up to provide a good level of comfort. despite its remote location. Each tent has a propane heater and proper 'cot beds' with bedding. We will have some food that is served in the Inuit community, such as muck, seal meat and char. Then we also will have breakfast, enjoy bacon, sausage, ham, eggs, cereal, milk, juice, coffee, tea, etc. For lunch we serve soup, sandwiches, cheese, crackers, pickles. For dinner, assorted vegetables, salads, rice, potatoes, fish, steak, salmon, haddock, etc. The Floe Edge is about 4 hours from the hotel; so we have very good specialist Arctic exploration tents to sleep in; which are heated. We have a separate food tents and will be looked after by a local cook and his assistant.

**The Floe Edge is truly remarkable experience**, where each year over a small 3-4 week period, we have a chance to see some species which are normally found far in the Arctic Ocean. At this time of the year, we have the migration of both Walruses and Beluga Whales, so these are two of the species we will be looking for. Taking the lead from our local Inuit guides we follow the Floe Edge for days of discovery, possible narwhal watching and the chance to see a variety of sea birds, polar bears, seals and possibly beluga and bowhead whales. Since we will experience close to 24 hours of sun at this time of the year; there will be long full days looking to find and photograph animals perfectly adapted to survive in this challenging environment.

**Day 8:** We will enjoy a final morning at the Floe Edge before enjoying a scenic ski-doo ride back to Arctic Bay, where we will once again overnight at the **'Tangmaqvik Hotel' or home stay**.

**Day 9:** When appropriate we will take a taxi back to the airport and connect with our onward international flights.
